

Configuring Color Attributes

Quick Reference Guide

Date: October 15

Introduction

In Maestro, users have the ability to alter the colors displayed by configuring the INI file. It is assumed the reader is familiar with:

- Maestro User Interface
- Configuring the INI file
- Has knowledge of light color theory

Colors in Maestro can be changed for the following:

- Front Desk Dashboard
- Guest Type on the Room Number Tape Charts
- Housekeeping Status on Housekeeping Screen
- Sales and Catering Dashboard
- Spa and Activities Dashboard

RGB Color Model

The RGB (Red, Green, and Blue) color model is an additive color model in which red, green, and blue light is added together in various ways to reproduce a broad array of colors. Each color is assigned a value and the combination of all three creates the color.

Maestro uses these values to identify which colors to display using the INI file

To identify the values for colors, Microsoft Paint can be used. The Edit Colors feature can be used to obtain color values.

To Edit Colors, open Microsoft Paint. For Windows XP users, go to Colors | Edit Colors. For Windows 7 users, go to the Home Tab | Edit Colors

This will display the Edit Colors box as shown below.

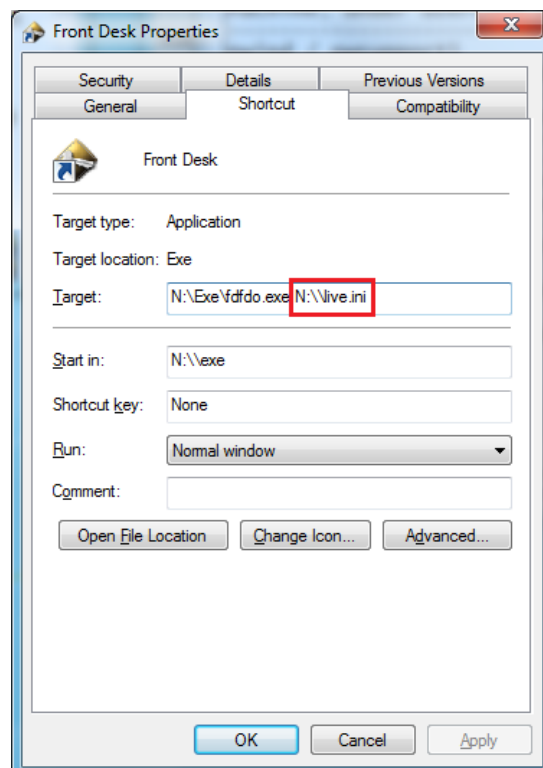

The values in the box above are the values that are needed to be entered in the INI file.

Assigning Colors

Assigning Colors in the INI File

Once the colors to be used are determined, the proper INI file must be updated. To locate the INI file, go to the shortcut for Maestro, right click and select Properties. Go to the Shortcut Tab.

The location of the INI file is the second part of the target path. Use Windows Explorer to follow the path to locate the INI file. Once located, the INI file should open as a Notepad file.

```
live - Notepad
File Edit Format View Help
*** USER OPTIONS ***

[view_print_command]
    "notepad N:\private\"

[browse_command]
    "iexplore N:\private\"

[misc_button]
    "Microsoft Notepad"    notepad
    "Microsoft Write"      write
    "Calculator"            calc

[display_case]
    upper

[display_date]
    mm/dd/yyyy

[display_time]
```

Within the open INI file, scroll down and find the [atr_colour] section. It is the atr_colour section that determines the colors displayed on all screens in Maestro. Next to each atr_colour entry are 3 columns. The first column contains the R (Red) value, the second column contains the G (Green), and the third column contains the B (Blue) column.

[atr_colour]	R	G	B
ATR_USER1_FORE	255	255	255
ATR_USER1_BACK	000	128	000
ATR_USER2_FORE	255	000	000
ATR_USER2_BACK	056	242	255
ATR_USER3_FORE	000	000	000
ATR_USER3_BACK	255	255	000
ATR_USER4_FORE	128	000	000
ATR_USER4_BACK	230	067	255
ATR_USER5_FORE	255	255	255
ATR_USER5_BACK	255	255	255
ATR_USER6_FORE	255	255	255
ATR_USER6_BACK	000	192	000
ATR_USER7_FORE	000	000	000
ATR_USER7_BACK	165	091	241
ATR_USER8_FORE	255	255	255
ATR_USER8_BACK	009	144	212

The values are entered in the columns in order of Red, Green, and Blue. Leading 0's are required for values 1 to 99 so that all values have 3 numbers.

It is important to maintain column integrity and spacing. A simple way to check is to highlight the columns and see if there are spacing issues.

ATR_USER1_FORE	255	255	255
ATR_USER1_BACK	000	128	000
ATR_USER2_FORE	255	000	000
ATR_USER2_BACK	056	242	255
ATR_USER3_FORE	000	000	000
ATR_USER3_BACK	255	255	000
ATR_USER4_FORE	128	000	000
ATR_USER4_BACK	230	067	255
ATR_USER5_FORE	212	255	255
ATR_USER5_BACK	255	255	255
ATR_USER6_FORE	255	255	255
ATR_USER6_BACK	000	192	000
ATR_USER7_FORE	000	000	000
ATR_USER7_BACK	165	091	241
ATR_USER8_FORE	255	255	255
ATR_USER8_BACK	009	144	212

From the above example, there should not be any spaces or blank characters after the Blue values. If there are any blank spaces, simply delete them.

Attribute Number	Reservation Status

The changes to the colors in the INI file will affect the following screens:

- Front Desk Dashboard
- Room Number Tape Chart
- Room Number 2 Week Tape Chart

Assigning Colors to Guest Types

Colors can be set by guest type and will display on the Room Number Tape charts.

Front Desk Maintenance | Codes | Guest Types

GstType	Description	Fol Temp	Type Grp	Color Code	Gst Type
AAA	AAA	STANDARD	FIT	ATTR102	
ADVANCE	Advance Deposit	STANDARD	OTHER	ATTR109	
COMP	Complimentary Guest	STANDARD	INTERNAL	ATTR119	
CORP	Corporate Guest	SPLITAR	CORP	ATTR106	
GOLD	Gold	STANDARD	VALUE		

Place the cursor on the Color Code field and perform a F8 Lookup.

Attribute	User Attribute
ATTR101	USER101_ATR
ATTR102	USER102_ATR
ATTR103	USER103_ATR
ATTR104	USER104_ATR
ATTR105	USER105_ATR
ATTR106	USER106_ATR
ATTR107	USER107_ATR
ATTR108	USER108_ATR
ATTR109	USER109_ATR
ATTR110	USER110_ATR
ATTR111	USER111_ATR
ATTR112	USER112_ATR
ATTR113	USER113_ATR
ATTR114	USER114_ATR
ATTR115	USER115_ATR
ATTR116	USER116_ATR
ATTR117	USER117_ATR
ATTR118	USER118_ATR
ATTR119	USER119_ATR
ATTR120	USER120_ATR

Highlight the desired color and press the Enter key.

Assigning Colors to Housekeeping Status

Colors can be set for different housekeeping statuses. To select colors, go to:

Front Desk Maintenance | Setup | Housekeeping Configuration | Housekeeping Status Codes

Housekeeping Status Codes [pat] - Maestro Mountain Lodg
