VAT Display – Can Include VAT from Breakdown Folio A change has been made to allow the folio to display total VAT for the reservation, on the guest folio, even if some items with VAT are posted on a breakdown folio.	5.1.133	74081	448

Front Desk

Description	Version	Ref #	Opt#
Same Room Number Assigned to Two Reservations Arriving on the Same Day In certain circumstances in previous versions, Maestro was allowing the same room to be assigned to the different reservations arriving on the same day. This has now been corrected.	5.1.126	67405	
Dynamic Packaging - Rooming List Rate Calculations A change has been made to the Rooming List Import calculate dynamic package rates correctly based on reservation Arrival and Departure Dates.	5.1.126	67190	
Rate Change on Reservation – Posting Code Now Updates When a Room Type Change is completed and that room is assigned to a Rate Type that is not a Daily Rate, Maestro now properly updates the Posting Code associated with the Rate Type based on the Room Type assigned.	5.1.127	68092	
Current Status Display - Second Offmarket Status The Current Status Screen now correctly displays availability numbers when rooms that have a second Offmarket Status are being removed from the total rooms available for sale.	5.1.128	69027	
New Prompt at Check Out – Displays when there are Unposted Charges A new prompt will now display when attempting to check out guest or group reservations, if there are unposted charges remaining. The prompt will ask the user if they wish to open a new folio, post charges and complete the check out. The clerk is also prompted to check the settlement method on the new folio once the charges are posted.	5.1.128	69008	
Request For Information Screen – F4 Key Now Saves and Exits The Request for Information Screen now allows the user to exit the screen using F4 or the Exit Key. In previous versions, Shift + F4 was required to exit the screen in previous versions.	5.1.131	69575	
Tape Charts - Room Attribute Display	5.1.132	72076	

Description	Version	Ref #	Opt#
In previous versions, Room Attributes were not properly displaying by Room Number on the 1 and 2 Week Tape Charts. This has now been corrected.			
Youth Extra Person Category Counts - No Longer Disappears From #G Field Maestro now saves the number of Youths when entered into the Extra Person Category Screen. In previous versions, this number was disappearing.	5.1.133	72514	
Tape Charts - Second Offmarket Status Display All Tape Charts now properly display the correct character (based on setup) when a room has a Second Offmarket Status assigned.	5.1.133	64393	
Housekeeping Assignment With No Credits Housekeeping Assignment can now be used if a property is not using Housekeeping Services with associated credits. In Global option 290 is set to a N, assignment can occur with no credits or services required.	5.1.134	74642	290
Soft Check In – Text in Body of Email In previous versions, when a guest received a Soft Check In notification email, it was displaying additional characters and page coding. This has been addressed.	5.1.136	77049	
Overbooking – 2nd Offmarket Status Maestro no longer changes the 2nd offmarket status of a room if a reservation is booked for that room during the offmarket time period **and** the 2nd offmarket status room was setup as "Available to Sell".	5.1.136	73621	
Dynamic Packaging – Assigning Rates over a Rate Season A change has been made to ensure that dynamic packages rebuild correctly when changing dates on a reservation, if the new dates occur over different rate seasons or date ranges.	5.1.140	76195	
E-Confirm – Shows Correct Number of Guests when a Suite is booked The Maestro E-Confirm now correctly displays the number of guests booked for a Suite.	5.1.140	73758	

Front Desk & Guest Services Reporting

~ No changes in the current version ~

Rate Management

~ No changes in the current version ~

Yield Management

Description	Version	Ref #	Opt#
Yield Override - When Booking A Reservation From Waitlist To Reserved Status If a Yield Override is in place for "Room Assignments Mandatory", Maestro now enforces this yield when changing the status of a reservation from Waitlist to Reserved.	5.1.131	66485	

Release Summary Notes Maestro Version 5.1.126 to 5.1.149

Housekeeping & Offmarket Room Management

Description	Version	Ref #	Opt#
Housekeeping Assignments – New Option to allow Stations To Cross Buildings Rooms from multiple buildings can now to be assigned to the same station by property. A new option in Housekeeping Setup allows for Stations to contain multiple buildings.	5.1.129	70065	
Housekeeping Services - Now Assigned For all Sharers In previous versions, housekeeping services were not being assigned to Sharer Reservations consistently. This has now been addressed and housekeeping services are now assigned to all sharer reservations.	5.1.129	69564	
Housekeeping Assignment – New Option To Ignore Building Codes There is now an option, by property, to 'Ignore Building When Assigning' in Housekeeping Configuration Setup. This option allows Housekeeping Assignment to be done regardless of the Building Code associated with the Room that needs service.	5.1.131	70408	
Housekeeping Report – New Option to Show Arrivals for 'x' days A new field on the Housekeeping Report called "Within Next Days" allows the user to enter a number of days in the future to show Arrivals for the selected day range.	5.1.133	68789	

Timeshare/Condo Management

Description	Version	Ref #	Opt#
Owner Statement Summary Report – Warning Indicator Added A warning of "*" will now display next to an Owner if the check amount does not equal the statement beginning balance on the Owner Statement Summary Report.	5.1.126	66995	
Commission Processing - Can Include Transferred Details A new system option has been added to determine whether transferred charges should be included in Owner Commission Processing. If Global System Option 429 is set to a Y, Maestro will, during the Commission Processing, check each folio detail and determine if it has been transferred to another folio. If it has been transferred, it will now be included in the processing. If the option is set to an N, no transferred details will be included.	5.1.128	68339	429
Batch Owner Reservations – Rate Type Not Available Display In certain situations, Maestro did not properly provide the current Rate Type to be assigned during the Batch Owner Reservation Creation Process. This has now been addressed.	5.1.129	67276	
Owner Statement - Beginning Balances With POS Charges Owner Statement Opening Beginning Balances were being reported incorrectly, if POS charges were posted that has no building and room number associated on the folio. This has now been corrected.	5.1.131	71073	
New Utility for reporting Discrepancies between Owner Check and Statement	5.1.134	74110	

A new utility has been created to show discrepancies between the check and statement amounts for each Owner. This utility is found in Global	System	Support.			
Batch Owner Statements - Error When Printing In certain versions, Maestro was generating a MAX_BUILD_ROOM error when running the Batch Owner Statements. This has been corrected.	5.1.136	77022	
Owned Units Screen – New On Screen Sorting Options The Owned Units Screen within each Owner Profile can now be sorted by various columns using the on screen selectors on each column header.	5.1.139	62194	

Work Order Management

Description	Version	Ref #	Opt#
Work Order Creation – Using the F6 Key In previous versions, if the user pressed and held the F6 (Create) Key, Maestro would create Work orders infinitely. Now, only a single Work Order is created regardless of the length of time the Create Key is pressed for.	5.1.128	68527	
Work Orders – Can Now be Property Specific Work order now has the ability to be property specific. Menus for property selection have been added to various screens and report selection options.	5.1.131	65369	
Work Order Report – Level Of Urgency Field When a user selects to report on a specific "Level of Urgency" on a Work Order Report, Maestro will now include this selection as designed.	5.1.136	71752	
Work Order Posting – Must be Current or Past Date The posting date of work orders can no longer be in the future. A work order must be posted on the current business date (or an earlier date) and must be posted before the end of the Completion Date.	5.1.143	73011	

Night Audit & Balancing

~ No changes in the current version ~

Front Office Management Reporting

Description	Version	Ref #	Opt#
Statistics Report – Unpicked Other Revenue Incorrect A fix has been made to statistics reports to have Other Revenue calculate and include night audit breakdown amounts for picked and unpicked rooms for group reports.	5.1.126	66997	
Flash Report - Now Includes Second Offmarket Room Status The Flash Report now includes rooms with a second offmarket status number in the number of offmarket rooms. The report will also remove the rooms from the availability numbers, if the offmarket option is configured to do so.	5.1.149	82228	

Release Summary Notes Maestro Version 5.1.126 to 5.1.149

Managers Pace By Type – Report Header The Manager's Pace by Type report was incorrectly titled in the report header, in previous versions. This has now been corrected.	5.1.127	68392	
Occupancy Comparison Report – Room Calculation Options A correction has been made to take into account the configured settings for including timeshare, offmarket and house rooms when showing available rooms based on the property's configuration.	5.1.136	70237	

Analytics

Description	Version	Ref #	Opt#
Marketing View – Group Master Lead Time Display In certain circumstances, the Marketing View was displaying Group Master reservations with a Booking date that occurred after the Group Arrival Date resulting in negative lead times being displayed. This has been corrected.	5.1.133	71233	

Accounts Receivable

Description	Version	Ref #	Opt#
AR Foreign Currency - Write-Off Reconciliation A new option to "Verify Exchange Write-Off" has been added to verify and correct past currency write-offs if Foreign Currency is in use in AR.	5.1.149	84954	
AR Foreign Currency - Folio Balance Display A change has been made to have the balance displayed on the folio header screen match the balance display on the folio detail screen. In previous versions, this was not always the case when the folio was transferred to AR from Front Desk using Foreign Currency Rates.	5.1.149	84953	

Tour Operator Management

Description	Version	Ref #	Opt#
Tour Op By Market Segment Report - Now Multi-Property The report can now be run for a specific property in a multi-property environment.	5.1.127	66543	
Tour Operator Current Status Report – Changes to Report This report has been updated to allow users to change properties in a multi-property environment. Additionally, this report will now the use the system business date instead of current date for reporting and has been updated to reflect offmarket rooms based on system settings.	5.1.127	65842	

Release Summary Notes Maestro Version 5.1.126 to 5.1.149

Gift Card Management

Description	Version	Ref #	Opt#
Gift Card – Option to Reprint Receipt A new option called "Reprint Receipt" has been added to the "POS Entry" screen to allow reprinting of a receipt. "Reprinted Receipt" will be printed on the first line for easy reference.	5.1.146	71753	

Spa Services

Description	Version	Ref #	Opt#
Booking Batch Process Screen – Speed Improvements A change has been made to the Spa Booking Process screen to improve the processing time and screen display time when accessed.	5.1.127	68985	
Guest History – Copying a Credit Card When copying a booking, the credit card number will now copy correctly after selecting a different provider than the original provider on the historical booking.	5.1.127	68977	
Provider Display – No Longer Duplicates When Searching for Specific Provider in the Providers Schedule, Maestro no longer displays duplicate provider information on separate lines when only one line should be shown.	5.1.127	68245	
Service Booking Check Out – With Second Gratuity A second gratuity that is applied during Check out will now be included in the Current Due Field regardless of whether Text was entered on the Gratuity Text Screen.	5.1.127	68069	
Dynamic Package Spa Services – Posting on Check out Date If a spa booking is part of a Dynamic Package that is booked on the Guest's Departure Date, Maestro now posts all Add On Charges and Gratuities to the Guest Folio allowing the Check Out to be completed on the date of departure.	5.1.131	69770	
Service Providers Commission Report – Displays Commission Totals The Service Providers Commission Report now shows the commission totals for all providers based on the date range selected.	5.1.139	78047	
Spa Settlement Screen – Back to Service Button The "Back to Service Booking" Button can now be selected from the Spa Settlement Screen when using a Service Group.	5.1.147	79549	
Service Rapid Search Screen – Building Code by Property Only the Building or Buildings available for the current property will now display in the Look Up Screen on the Building Code field.	5.1.149	85440	
Service Rapid Search Screen – Room Number Field Look Up A change has been made to allow an F8 Lookup on the Room Number Field in the Service Rapid Search screen.	5.1.149	84982	
Service Booking Entry - No Provider A change has been made to the "Service Booking Entry" screen to allow the user to move to Other Fields on this screen before filling in the Provider Name. In	5.1.149	84901	

previous versions, the Provider Name was mandatory before moving to other fields on the screen.			

Membership

Description	Version	Ref #	Opt#
Minimum Calculations - Now Include Breakdown Postings A change has been made to have the F&B consumed amount calculation take into consideration any revenue postings on the guest breakdown folio.	5.1.129	68831	
Member Calculation - Now Include Breakdown Folio The totals in a reservation breakdown folio are now included when determining the member minimum calculation.	5.1.132	72703	
Turnstile - Error Message In previous versions, a Port Error would be displayed if a user attempted to swipe a membership card when there was no turnstile setup within Maestro. This has been corrected.	5.1.132	72327	
Processing Payments - Arrow Key No Longer Required In previous versions, when applying a member payment, users needed to use the Arrow Up Key on screen to process the payment and receipt. This has been updated to allow the users to use the Enter Key to complete this process.	5.1.146	81886	

Alternate Inventory

~ No changes in the current version ~

Facilities Management

Description	Version	Ref #	Opt#
